THE SHIPYARD, WHERE CREATIVITY MEANS PERFECTION

An AMEL shipyard is unlike any other. A place where, with careful thought, dreams are turned into original creations. A place where unique yachts are built, soon to sail the widest oceans for months at a time. A place where the bywords are quality, rigour and care at all times, from the latest technology to the very last loving touch of the craftsman as he completes his unique creation.

YACHTS THAT ARE
« TRUE TO THE SEA »

But what did Henri AMEL, who was known as «le Cap'tain», and founded the AMEL Shipyards in 1965, mean by that? The answer is obvious as soon as you set sail in an AMEL 54. This cruising sailboat both rules and respects the elements. True proud vessels designed and built for «real sailing». Just what «le Cap'tain» wanted. And these are the values that still underpin every boat built in his shipyards to this day.

A truly unique way of looking at things.
